IFAT—SAVE THE DATE

**May 30–June 3, 2022**

First postponed, then canceled. Both hit the IFAT community hard, but also reaffirmed our stance: #OnWeGo. Hence, we expand our digital offering to provide substantial industry information and plenty of stimulus until the next event in 2022. Let's get together online until face-to-face contact will finally be possible again.

**IFAT—the digital overview**

WHO, WHERE, WHAT, WHEN?

**The IFAT exhibitor portal**

Our comprehensive exhibitor portal is the ideal tool to get information on solutions, services, product groups, products and companies from the entire water, sewage, waste and raw materials industry. Practical details: the watch list function and personal database.

MORE URGENT THAN EVER BEFORE: CLIMATE PROTECTION

## IFAT Environmental Index 2020—the results

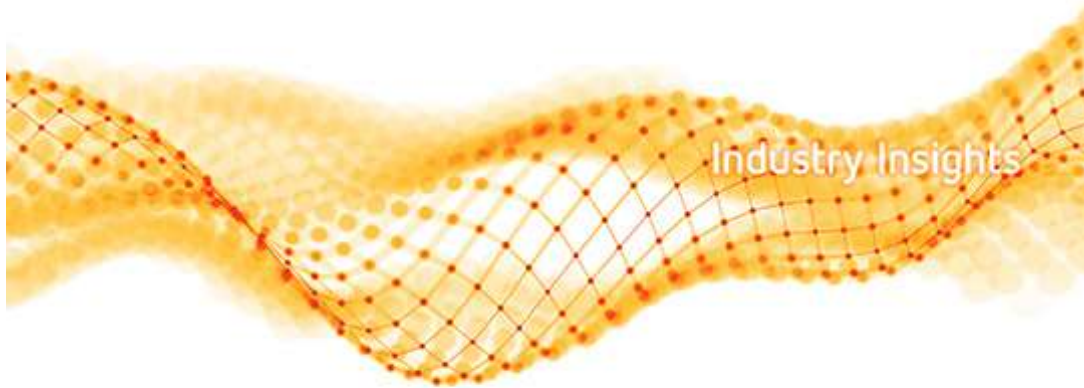

Reduce greenhouse gases through a sustainable circular economy—this central demand stems from the IFAT Environmental Index 2020. In our online survey on climate protection, around 3,000 environmental experts from the IFAT trade fair network declared themselves in favor of recycling more waste, using more recycled raw materials and strengthening the polluter-pays principle.

## INDUSTRY INSIGHTS

## Innovative solutions of the environmental industry

Individually: good; together: unbeatable. When smart ideas meet innovative technologies, it is both exciting and targeted. The best practice videos of our Industry Insights introduce exemplary solutions from municipalities and companies. The topics? Recycling of building materials, city cleaning with biogas, Sponge City, phosphorus recovery or beer from sewage.
